

HAVE YOUR SAY ABOUT LIFE IN THE MEDICAL WORKFORCE

So Doc...
Does Medicine give
you a Buzz?

Join the Doctors' e-Cohort Study today!

The **Doctors' e-Cohort Study** is a five year longitudinal study that will explore the *complex factors* influencing the *health and wellbeing* of Australian doctors and medical students, their *career choices*, and their *recruitment and retention* in metropolitan, rural and remote regions.

By choosing to take part in this study, you will help us to understand what you find *satisfying* and *frustrating* about working in medicine. You can potentially help put in place state and national policies that will lead to more positive outcomes for practitioners and their patients.

Join the research study that will help make your medical workforce a healthier, happier and better place to be!

<http://doctors.e-cohort.net>

We invite all medical practitioners and medical students to participate in the study by logging on to the website at <http://doctors.e-cohort.net>

Register now for your chance to win **2 Gold Class Movie Tickets** or a **\$100 gift voucher** from The University of Queensland's Herston Medical Bookshop (can be redeemed online)

The study is conducted under the direction of the **School of Medicine at The University of Queensland** and funded by the **Australian Research Council** in partnership with **Queensland Health** and the **Royal Australian College of General Practitioners**.

<http://doctors.e-cohort.net>

Participation involves completing an online survey *each year for five years*. You will be asked to provide basic demographic information as well as answer questions on your workplace environment, job satisfaction and personal health and lifestyle issues.

The University of Queensland ethical review committee has assessed and approved this study, which complies with the Australian and Queensland privacy laws and guidelines. More detailed information can be found at the privacy statement section on our website at:
